Frolic With The Family On Wednesday Night

To be held in the Memorial Centre on Wednesday, May 20. Fun for Mum and Dad and all the kids, is promised on this occasion—and Dad wont have to dip for admission fees, because it's free!

The programme provides something of interest to all ages.

Children under 15 will be treated to free soft drinks (by courtesy of Innes-Tartan Ltd); free toffee apples (by courtesy of Simms-Jones Ltd); free balloons for primary school kiddies (by courtesy of J. Wattie Ltd.)

The programme includes novelty dances, special items, spontaneous items and the popular quick raffles.

Special prizes will be awarded to the best dressed couple, lady and gentleman, wearing appropriate country type clothing. Mr and Mrs Jock Somervell, will judge this event.

The spirit of the whole evening will it is hoped, be one of informality with humour and good fellowship the keynote. Whether you are five or 95 years young, you will find something to make you laugh and enjoy yourself.

"Come prepared," said Farmers Trading Company manager, Mr "Bub" Tremaine, who is the guiding light in organising this suspicious occasion.

"We want everybody who can do anything to add to the fun, say give an item, do a dance, play an instrument anything of that kind, to step up and do it. The more informal the dress the more appreciated it will be by the sponsors.

Compere for the show will be that popular country western style figure Tom Annis, who will "set the main," and music for the dance will be supplied by Matamata's own 'Nightbeats.'

So, it looks as through Wednesday, May 20 is going to be one out of the bag as a family gathering in the Memorial Centre.

Town And Country Week Road Race Has Taken Months Of Planning

For a large number of people, that name means Speed, Spectacle, Thrills and a Day of Wonderful Driving. For others it means Danger, Noise, a Disruption of a quiet Saturday.

To me, as organiser, it means Problems—hundreds and hundreds of Problems. Not really big ones, perhaps, but big enough for one to throw everything out of gear at the wrong time.

And Work! Weeks of it. Seeing this one, ringing that one, asking him, negotiating with her.

During the latter part of February P.R.A. executive started planning for Town and Country Week. We wanted something different, something new to replace the old faithful Exhibition. Believe me, its a lot harder than you think, to stage or think of something new.

We were able to use some ideas from "Come to Matamata Week" staged in 1959, but we still wanted something Big for the Saturday. I heard a whisper that some time ago the Hamilton Car Club was keen to stage a motor race in Matamata. I collected all the information I could and put the idea to the next PRA meeting. It was accepted, and then it STARTED—the Festival Road Race Committee was formed.

To cut a long story short, this was set up. Permission was obtained from the Borough Council to close certain roads, and I must say the council's co-operation was gratifying.

The chief steward for N.Z. Car Clubs flew from Christchurch to inspect the track, particularly from a safety angle. He was most impressed. The residents concerned received a personal letter asking for their co-operation and setting out action that we would take to ensure their safety and well-being.

Generous sponsors (W. D. and H. O. Wills, and local garage and tourist resorts), generously offered to provide prizemoney and/or trophies.

Meanwhile, the Hamilton Car Club, headed by Ross Scherer of Waharoa, was busy planning the programme, arranging track marshals, flag marshals, timekeepers, judges, clerk of the course, in fact, a staff of about 120 to run the day.

Applying for permits, arranging a quarter million pounds (£250,000 to you), worth of insurance to cover all contingencies; sending out entry forms and hundreds of other details.

Throughout all this planning the theme has been, "PUBLICITY FOR MATAMATA," to bring people here and show them what a wonderful town in which we live and work, and what a wonderful dairying district we have.

Secondly, to give local non-profit organisations a chance to help finance their work.

•

THIS, THEN IS THE SET-UP

FREE PICTURES — AMPLE PARKING — REFRESHMENTS

ROAD RACE—Continued

on a commission basis.

Parking areas have been found and will be manned by parents and friends of the Marching Girls Association at a charge of 1/- per car.

Food booths which were offered to sports clubs were not accepted and will now be in charge of the Lions Club, Free Kindergarten, Girls Life Brigade and Methodist Men's Fellowship and School P.T.A.

Programme sales will be handled by the Wardville School Committee on a commission basis to help their school bath fund.

Matamata Rotary has generously offered 20 men to act as crowd marshals on the day.

Finally, any profits from the charge of 5/- entry to see the racing will be divided evenly between the Car Club and the P.R.A

During the week previous and on the morning of the day from approximately 3 a.m. miles of fencing will be erected. Gates will be erected across all entry points and hundreds of hay bales will be placed at various points on the track. Street widening of which we are paying a proportion is under way and special arrangements for essential services are in hand.

All in all this is one of the biggest undertakings ever put on in Matamata, and we take this opportunity of thanking each and every person concerned for their willing and helpful co-operation. The number of spectators of course is a big question mark, but we could get, with the extensive publicity we are giving, upwards of five thousand people.

There are two requests I would make of people attending: Please remember Road Racing can be dangerous and obey crowd marshals and signposting etc.

Secondly—say a little prayer that it will be a fine day.

Why Should We Shop In Matamata

(The Woman's Point of View, by Sue)

A fair knowledge of the public of Matamata indicates to me that only a small proportion do their shopping outside the borough but a deep seem astounding that some businesses have been known to draw their car the miles or more, or spend more than half a day travelling by bus, in the hope that they will save a few pence on the articles we buy.

Granted that bulk supermarkets were recently opened in Matamata there are the odd bargains to be obtained elsewhere, and it was something of a novelty to shop in new surroundings.

Most are over an hour that the novelty has worn off, and we are the really independent packet with the usual weight and the price clearly marked. It appears that the old method of the butcher slapping the meat on to the scales, wrapping it quickly and scribbling a docket is going by the board.

It appears to me that the main reasons why some women shop out of town are:—

If they want to buy something extraordinary they have looked around to suit a odd fancy.

Now and again go on a shopping spree, not as much as spend a lot of money, but to see new shops, window shop, compare prices, all of which are relish and ring to a woman's heart.

It stands to reason that for the successful development of a community we should all take in each other's washing. In other words, as far as is practicable and reasonable we should spend our money where we earn it, and support the people who support us.

Matamata town and county residents have little to complain of in the service and facilities offered by Matamata retailers and business houses generally, and that includes garages, engineering and all services required by a community such as ours.

There will always be the odd person who, like the blackberry pickers, thinks there may be better pickings on the next bush, but it rarely works out.

So, let's make a resolution—

BEGIN TODAY—DON'T SHOP AWAY!

P.S.—One still hears an occasional complaint that a certain old-established and reasonably known shop does not use all business in Matamata. Fair play to complain! That business closed because it wasn't supported by local people!

A Car To Be Proud Of

To drive this outstanding car is a revelation in performance. It is an idle boast that the supreme comfort, spacious road holding ability and the flashing power and acceleration put the Chrysler Valiant head and shoulders above any other car in its class, said Mr Morris Bennett, sales manager of Bayleys Motors (1966) Limited, yesterday afternoon. He was referring to the unexcelled offering the world famous Chrysler Corporation should will be on display next week. The price is also quoted as topclass car prices go—$1,298.

Centennial Drive: A Memorial To Pioneers

One wonders how many country people visit the Centennial Drive in Matamata and realise the amount of work that has been done by the small and faithful band, the Matamata Centennial Drive Development Society since its formation some six or seven years ago.

Running through from the Scout Hall in Broadway to emerge at the entrance to Bedford Park in Tainui Street the drive has been transformed from a wilderness to an attractive avenue of trees and flowering shrubs.

Work is still proceeding steadily —trees and shrubs don't grow in a day—and visitors to Matamata next will will find a leisurely drive through Centennial Drive a rewarding one.

The drive, known as the "town belt" in earlier days, was set aside to become a shelter belt of trees, but as time went on little was done and most of the few trees that became established, "received the axe" to make way for power lines.

In 1940, as part of the national Centennial Celebrations, a tree planting project was undertaken and the drive dedicated as a memorial to the pioneers of the town and district.

The then Mayor (the first Mayor) of Matamata, Mr William Gordon presided at a large gathering at the dedication ceremony. The town clerk of the day, Mr W. D. Hay was present in uniform, on final leave before proceeding on overseas service.

The writer of this reminiscence recalls Mr Gordon in his remarks, making reference to Mr Hay's departure and extending to him the good wishes of Council and citizens. "We hope to see Mr Hay return to us with the Field Marshal's baton which is proverbially in every soldier's knapsack."

Well, Mr Hay did not bring back a Field Marshal's baton, but he did give five years faithful service as a fighting soldier before returning to resume his town clerk's position, and give Matamata Borough a further 17 years faithful service before ill-health caused him to retire.

Mr Gordon, whose name is perpetuated in Gordon Park, the forest reserve on the Kaimais which is Matamata's water catchment area, died in Auckland a number of years ago.

However, we seem to be transgressing a bit. Let's repeat the suggestion that visitors to town next week visit the Centennial Drive.

Call and inspect these fine vehicles while you are enjoying the fun and frolics during Matamata's Town and Country Week!

Discuss your motoring problems with us. We are here to give you SERVICE!

This Programme . . .

This programme for the P.R.A.'s 1964 Town and Country Week Festival has —been produced in something of a hurry and under considerable pressure. It all happened in a bit of a flurry.

Doug Turner asked us to put a "dodger" containing the week's programme, as a supplement to Matamata District Chronicle, which as you all know, goes to every home within about a thousand miles—well, give and take a bit!

As Chronicle publishing day did not work in, we suggested that we print the programme on a little more elaborate scale (say about four pages) and use Chronicle's district-wide organisation for distribution.

"Right," said Doug, "Do your worst—I mean best!"

So we went out into the highways and by-ways of Matamata and first of all asked a couple of prominent business houses if they would be interested in helping to sponsor a modest publication publicising the Week.

The result was far from encouraging and we were just about prepared to toss the idea overboard, when a progressive, patriotic and keen business man said, "My oath, I'll take a page!"

From then on, we never looked back, and before the job was finished, it became almost embarassing. There are still people who we feel sure would have been pleased to advertise if we could have got round to them, but it became impossible. Like Topsy, we just grew.

The response by Matamata business people to assist in producing this programme is the more gratifying to us in view of the fact that we had to compete with high-pressure salesmen representing outside journals which have very limited circulations in the area and certainly have no sentimental interest in Matamata.

It is pleasing to note that so many Matamata business people observe the sentiments expressed on another page in this booklet—and shop in their own town!

To any business house who would have liked to be with us and was not invited, we sincerely apologise. It just wasn't possible if we were to get the job done on time.

As a matter of interest, the 3300 copies of this programme which is being delivered free to all householders from Walton to Tirau, has used up six cwt of paper, eight lbs of ink, and has made 35,500 impressions on our letterpress machine.

MG On Display

By tradition the name of M.G. is associated with sports cars, although in recent years a few bread-and-butter saloons have borne the insignia.

If a sports car could be defined simply as a car one enjoys driving for fun alone, then the M.G. 1100 must surely come into this category; for in addition to being a roomy four-seater it performs with such enthusiasm that every minute spent at the wheel becomes a real pleasure.

See the select range of M.G. models by Cleaver Motors, in the parade on Monday.

Brevities of Festival Week

Lucky Shoppers

At a certain time each day during "Town & Country Week" a member of the P.R.A. excecutive will be in one of the shops taking part in this week. He will hand to a lucky customer, making a purchase at that particular time, a voucher.

The winner of this voucher will be entitled to receive goods to the voucher's value from any P.R.A. members' shop or garage, at any time within a month of that date.

Remember, you will have to be in town and purchase something from one of these shops during Matamata's "Town & Country Week" and remember also, there will be a voucher to be won every day during this fun-filled week.

●

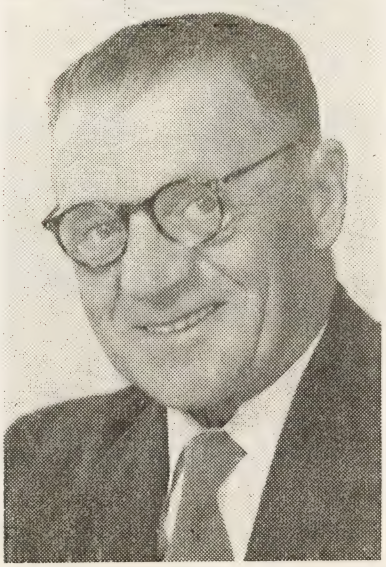
The Spondulux Quest

Mr Spondulux (you know, the bloke with the do-ra-me?), will be in town on Monday, Wednesday and Friday, and his missus on Tuesday and Thursday. You pick 'em and they'll pay. It could be your own brother, aunt or uncle, that woman next door, or the bloke starting the wheelbarrow races. This quest is open to all, young and old, or in the middle.

●

To Lead Parade

The Matamata Orphans Club, which has been a keen supporter over the years of all P.R.A. projects, and has never failed to enter an attractive float in the exhibition parades (winning several prizes), will again be seen in an assisting role when musician members of the club will lead the parade in a truck, on Monday.



MR A. D. (Doug) TURNER

Matamata Public Relations Association Secretary, who has served the association since its foundation in 1956. During that time Mr Turner has had the organising of several Commerce and Industries Fairs, Festival Weeks and other activities allied with the Association's affairs.

●

Spacious Vivacious

Matamata Motors invite you to take a special look next week at the spacious, vivacious Viva, the new 1-litre Vauxhall with all the qualities of a fine car. Clean, functional good looks. Stretching room for four—room for five if you want to slip a youngster in as well.

Holiday-size boot, just look at what it holds! Its the liveliest, peppiest, snappiest 1-litre family saloon in the world, say Matamata Motors.

See it for yourself next week in the vehicle exhibition.

Motor Racing Is An Exciting Sport

The Matamata Festival road races to be held on May 23 in and about the town, will give Matamata and visiting citizens their first experience of a "round the houses circuit motor racing in the Waikato."

Motor racing is an exciting sport, calling for careful control if it is to preserve its popularity and maintain public support. All motor sport in New Zealand, with the exception of Go-Karting, is controlled by the "Association of New Zealand Car Clubs," which has more than 80 affiliated member clubs.

The A.N.Z.C.C. is in turn directly responsible to the Royal Automobile Club of England, which is a member of the "Federation Internationale de Automobile," **THE** world authority of motor sport.

Every motoring country in the world abides by the laws laid down by the Federation Internationale.

The Hamilton Car Club, which is virtually in charge of the Matamata Festival road races, has joined up with the Matamata Public Relations Association to promote the event, and hopes, with the assistance of other local organisations to make the event an annual one.

Car clubs came into their own following World War II and for some years their activities were restricted by the shortage of cars and petrol. As the situation in this respect eased, an increasing number of clubs became active for those people who wished to use their vehicles for something more than mere conveyance.

Car clubs cater for all forms of motor sport, including trials, rallies, driving tests and racing. All events must be conducted according to the venues and programmes approved by the chief steward of the Association.

Plans have been maturing for the past two months for the Matamata meeting on May 23. Officials have had a busy time drafting rules and regulations, and have sent out more than 1000 entry forms throughout the North Island. More than 100 entries had been received when this story was written.

There will be more than 60 officials actually concerned with the running of the day, assisted by Police, Transport Officers, Borough officials and members of local helpful organisations.

The Hamilton Car Club is very appreciative of the co-operation and support forthcoming from Matamata organisations and the overall support received.

ROSS SCHERER,
President, Hamilton Car Club.

Wool Boad Garments Will Be A Feature Of Parade

Another bright opener for next week's festivities will be the Fashion Parade on Monday night in the Memorial Centre. The parade will be sponsored by local fashion stores, and will include a presentation of the New Zealand Wool Board's Gold Medal Garments.

Compere Bobby Jarvis will be assisted by local and visiting professional models in presenting a display of items that are available in Matamata Fashion Houses. Bobby is well known to the fashion conscious as a compere and model and she will have much of interest to tell about her recent tour publicising the New Zealand Wool Board selections. Bobby has taken her favourites from this New Zealand-wide acclaimed collection and will exhibit them as a grand finale to the show.

All these garments have been and are available in Matamata stores.

Bookings for Monday night may be made —now at Morrison's Record Bar on the corner of Broadway and Arawa Street.

Visitors to the Fashion Parade at the Memorial Centre on Monday evening will be especially interested in the display by Matamata's Fashion Casuals shop, in the Regent Theatre Buildings. There one may obtain the lastest in slacks, skirts, suits frocks and rainwear and have the advantage of working on a revolving credit account.

ALL IN MATAMATA !

Children's Art Exhibition

This week in Matamata, at Toomeys Fabric Centre and Waikato Savings Bank, is a child art exhibition sponsored by the Matamata Art Society. A selection committee had a difficult task choosing from a very large number of entries, the pictures to be hung. And naturally, there were a lot of disappointed budding artists. However this was inevitable, and the committee, while sympathising with them, feel sure they will appreciate the position.

No less than 110 entries from the Matamata Kindergarten, Gordon, Walton, Matamata Primary, Turangaomoana, Richmond Downs, Firth Primary, schools have been accepted, plus 32 from Matamata College.

Guest artist of the week is Sherida Buckland, 11yrs 2mths, of Tauranga, whose favourite subjects are painting, drawing and social subjects.

Sherida's favourite medium is the greasy crayon, but she is aware she has explored most of its possibilities and now needs to try new media, says her teacher.

Although she has won prizes in a number of minor art contests, Sherida's best success was in a national crayon colouring contest last year when she took second prize equal among 4000 entries.

Visitors are welcome at the Fabric Centre and Savings Bank this week to view this exhibition of child art.

All Prizes in Cash and Trophies for Competitions during the week have been donated by local business houses.

Vehicles On Display During The Week

Motor cars, tractors and agricultural machinery will be on display in Broadway during the week. Local garages and dealers will combine to stage a parade of their various lines on Monday, starting at 12 noon.

The parade will start at Baigent Motors in Firth Street, proceed along Broadway to Edwards Motors bus terminal, then back up the southern side of Broadway to Arawa Street, around the block via Hetana Street back to Broadway, where the vehicles and implements will remain on show on the grass plots throughout the week.

Firms taking part in this feature of the festival are Baigent Motors, who will display a range of Hillman cars, from the latest automatic Super Minx down to the small Imp. They will also show the new Chrysler Valiant station wagon and David Brown tractors.

Black's Service Station will feature a full range of the latest Standard Triumph vehicles, and Cowling Bros. will show the latest Ford Cortina and Zephyr model cars and Fordson tractors.

Cleaver Motors Ltd. will exhibit the latest M.G. Midget Mark 2 tourer, M.G. sports car with hard top, M.G. 1100 saloon, Mom's Mini-Cooper and aa range of the latest Nuffield tractors.

Farm machinery will be the basis of Matamata Machinery Exchange's display, while Matamata Motors will concentrate on a comprehensive range of General Motors Vauxhall cars including the latest 26 h.p. Velox six-seater family saloon, the 16 h.p. Victor Super and the new Viva Deluxe 1059 cc four seater.

Seabrook Fowlds will have on show their Mini Cooper F, Austin Mini and A60, Austin 1100 and a Nash Rambler Classic.

Slade Anderson Motors will show a Fiat 1500 Sports Saloon, a Fiat 500D Salon and a Volkswagen 1500 Saloon. Wright Stephenson Ltd will show a full range of Massey-Ferguson tractors.

This feature of Town and Country Week should be a real crowd pleaser and will no doubt be one of the most popular attractions. Certainly, an ideal opener for the week.

Wheelbarrow Derby For The Grown-Ups

For those older young-uns who kid themselves they are still fit, there will be wheelbarrow heats on Monday May 18, at 2 p.m., Wednesday 20 at 3 p.m. and Friday, 22 at 2 p.m. Semi-finals and finals on Friday night about 8 o'clock.

Queensberry Rules; no horseshoes allowed in the gloves. No spikes longer than six inches allowed. Start at

the pedestrian crossing near Manly Milk Bar in Broadway, proceed sedately to the top of Arawa Street, change over and return to finish at the Broadway-Arawa Street intersection.

The Wheelbarrow Oaks for the weaker (!?) sex will be run on the same days as the Derby, but the course will be shorter. They will start at the Manly pedestrian crossing, change over pushers and passengers at Wallace Supplies and finish at Cummings'.

First and second in the heats of both men's and women's events will be eligible for the finals on Friday night. Winners of the Derby (men) will earn £20, and the Oaks (women) £10, with prizes also for minor placings.

It is understood that some unscrupulous people with prior knowledge of these fabulous rewards are already in training; but it should be remembered that the race is not always won by the swiftest, and last to enter could well be the ones to collect the prize.

Lucky Numbers

During Town and Country Week many shops will feature articles which bear a number. If the number on this article corresponds with the one on the front page of your programme, you may claim that article. But remember you must produce the programme with the correct number, to win your prize.

And of course, the article must be claimed during the Festival week.

Children's Day Organised By Lions Club

Wednesday, May 20, will be "a day for the children," organised by the Matamata Lions Club (if there happen to be a few Tigers among them, just report any you see to the P.R.A. office and get a special prize.)

This feature starts at 12.30 p.m. with a gathering of decorated bikes, prams, and pets. There will be prizes for all sections. Don't miss this. The parade will start at 12.45. The pets may include cats, dogs, birds, weasels, tame eels, snails, slugs, even fathers and mothers. Children are warned that any pet parents must be kept firmly tethered with rope, chain or similar deterrent.

TROLLEY DERBY heats will be started at 1.30 p.m. this day, in two classes (or is it classics?).

One class is for children up to and including Standard 4, and the second class for those older guys and gals in Forms 1 and 2.

Now, there's no foolin' around in this business, you kids. There will be a fair dinkum pit inspection of all speed wagons, and it is hoped all contestants will be outfitted with crash helmets. If your're gonna career round this town at break-neck speeds, you've gotta be pertected—and so have we!

The course will be from the pedestrian crossing at Morrison's corner to the crossing at Cumming's draper shop in Arawa Street. Grand Prix Rules to be observed. Final about 2.50 p.m. if there are any vehicles capable of completing the course by that time.

Events on the side on this day of days will be a Scavenger Hunt (if you know what that is), a Happle Bobbing competition and a Lolly Scramble.

Boys and girls will also have an opportunity (why confine it to the kids?) to make an honest quid by finding Mr or Mrs Spondulux. Its easy, really! All you have to do is ask everyone you see if they are Mr or Mrs Spondulux. If they are they will say yes, and you get the money, honey.

And it does give the old people a thrill to be interrogated by about five hundred and fifty-five little so-and so's as they stroll along the strata.

So now, you younkers, get on dad's hammer and make him bring you into town next Wednesday.

Apart from the prizes for the children's events, there will be the lucky number and shopping specials for the parents. See you later, agitator!

(Ten bob prize for the first school boy or girl (primary) who brings in a copy of this programme with ALL the typographical errers on this page correckly marked.—Tainui Press).

TOOMEY'S for FABRICS

THE AUSTIN 1100 IS EXCEPTIONAL VALUE

The Austin 1100, for which Seabrook Fowlds are agents in Matamata is available in Basic and De Luxe form. Being already proven in other B.M.C. marques for mechanical dependability this car rates among the finest yet and represents exceptional value.

British and best, it possesses the usual built-in Austin dependability coupled to some of the most advanced engineering design features to be found in modern car maufacturing technique.

To the transverse engine/gear/box/front wheel drive power pack arrangement introduced in the fabulous B.M.C. Minis, and now successfully carried to the Austi 1100, has been added the virtues of velvet-smooth Hydrolastic suspension.

The principle of "a-wheel-in-each-corner" provides amazing interior space and riding comfort for up to five adults—achieved in an overall length of only a little over 12 feet. Because of its compactness, the Austin 1100 maintains—in tradition already affectionately established in the Mini saloon—truly phenominal manoeuverability, and superb driving qualities on the road.

Young Farmers Field Day

At 10.30 a.m. on Wednesday, May 20 in Mr T. Grant's paddock Rawhiti Avenue, Matamata District Young Farmers' Clubs will stage a field day, and what a day. Included will be a demonstration of Vacuum Packed Silage Making by Green Motors of Papakura; a haybale stacking competition and tractor driving competitions and demonstrations etc.

Come along and see these demonstrations and join in the competitions. See if you can drive a tractor as good as some of these young "cockies.". Have a go at stacking bales of hay—yes there will be something to interest all of you.
